Be with me I'll be with you  
Wanta know things not taught in school  
Fell off the rainbow heart in hand  
Just no reason for you to hide

Chorus: It's all so beautiful, so beautiful, so beautiful

Too much sadness too much to borrow  
Need to feel a good tomorrow  
Stop thinking of the pain  
No more darkness will find us

Chorus: It's all so beautiful, so beautiful, so beautiful

Bridge: Down from the mountain top  
See my feet hit the ground  
No more livin a lie  
Sun drops down... never die...never die...

Reach out to the stars  
Bring back a new beginning  
Tell others what you see  
Tear down the curtain let the light shine in

Chorus: It's all so beautiful, so beautiful, so beautiful

(Repeat Bridge)
