Send your love down
Right on me
Make me drop down
On my knees

Need it now babe
If you please
Soul infatuation
Just too strong

Chorus: Ride the stars cross the sky
Hidden corners of the universe in your eyes
Tell me you love me just don't lie
Hold me close don't make me cry...

Secrets unknown
In your touch
Visions come to mind
Just too much

Show me the way
Convict my heart
Things yet to feel
In your love

(Repeat Chorus)

Victim of the crime
Of worldly ways
Take the blinders
From my eyes

Yet blind me
With your love
Soul infatuation
Just too strong

(Repeat Chorus)
